

Company description

Founded in 1999, **ECG** is a Swiss-based consulting company specialising in the energy industry. The enterprise is 100% management-owned and has hired more than 40 professionals worldwide acting as technical or management consultant and transaction advisor. The ECG experts have extensive experience as senior executives and international consultants, both in liberalised power markets and emerging economies. Leveraging our broad market knowledge and strong management skills, ECG is able to execute complex consulting projects and transactions – deploying dedicated, interdisciplinary teams.

ECG has successfully delivered more than 300 energy projects in more than 40 countries.

Context

Currently no open position. However, spontaneous applications with strong business rationale are welcome.
